Education

Shahjalal University of Science and Technology, Sylhet
Bachelor of Science in Computer Science & Engineering

February 2020 – June 2025
CGPA: 3.55

Professional Experience

Software Engineer at Pathao

September 2025 – Present

- Developed frontend features for Pathao Points expiry system, ensuring accurate display of reward validity and expiry status for users.
- Developed an internal dashboard for creating and managing Pathao advertisements.
- Maintained and enhanced multiple internal dashboards by adding new features, fixing bugs, and improving usability.

Professional Projects

Storyteller | [Live Website Preview](#)

[Frontend](#) | [Backend](#)

A generative AI app for children's stories featuring prompt-based story and image generation with speech.

Technologies: [Next.js](#), [TypeScript](#), [Tailwind CSS](#), [MongoDB](#), [Express.js](#), [Stable Diffusion](#), [ChatGPT](#), [Azure](#)

- Enables children to create personalized stories using AI-generated text and illustrations.
- Integrates Azure Text-to-Speech for an immersive, narrated storytelling experience.

E-Commerce Website for Leather Goods | [Live Website Demo Preview](#)

[GitHub](#)

Production-level e-commerce platform with modern UI, scalable infrastructure, and full admin capabilities.

Technologies: [MERN Stack](#), [Next.js](#), [TypeScript](#), [Tailwind CSS](#), [AWS](#)

- Built robust shopping features like cart, checkout, and order tracking.
- Developed a fully functional admin panel for managing product listings, edits, and inventory.

Academic Projects

MediLux – Online Medicine Store

[GitHub](#)

An e-commerce platform for purchasing medicine online with complete admin functionalities.

Technologies: [MERN Stack](#), [Next.js](#), [TypeScript](#), [Tailwind CSS](#), [AWS](#)

- Allows users to browse and purchase medicines with a secure shopping experience.
- Includes a fully functional admin panel for managing medicines, inventory, and orders.

Falcon Airline Ticketing System

[GitHub](#)

A desktop application for booking and managing airline tickets.

Technologies: [Java](#), [JavaFX](#)

- Enables users to search flights, purchase tickets, and manage bookings efficiently.
- Built with a user-friendly interface and strong data handling in JavaFX.

Technical Skills

Programming Languages: C++, C, Java, Python, JavaScript, TypeScript

Web Technologies: Next.js, React.js, Vue.js, Nuxt.js, Node.js, Express.js, JSP, Servlet, JavaFX

Databases: MySQL, MongoDB

DevOps & Cloud: AWS, Azure, Docker

Tools & Frameworks: Tailwind CSS, Scss, Stable Diffusion, ChatGPT API

Prompt Engineering: Skilled in designing prompts for AI models.

Problem Solving

Solved more than 1000 problems in different online platforms.
